## REGION 5

230 SOUTH DEARBORN ST.

CHICAGO, ILLINOIS 60604

REPLY TO THE ATTENTION OF:

000001

Mr. David Dollins  
Remedial Project Mgr.  
Illinois EPA, Division of Land Pollution Control  
2200 Churchill Road, Box 19276  
Springfield, IL 62794-9276

Dear David:

As per our recent conversation, please find below a list of additional residences eligible for emergency assistance by the Emergency Response Branch of U.S. EPA, due to concerns over the safety of their well water. These concerns were brought to my attention as a result of sampling done by you earlier this summer. The affected residents are being provided with water by U.S. EPA and additional sampling was conducted by me to confirm and delineate the "Hot Spots".

It is anticipated that funds will be available shortly after the start of the new fiscal year to provide a permanent remedy to the worst of the areas and a temporary remediation to a marginal area. This will be done as an expansion of the existing S.E. Rockford project, (which is near completion), as a result of similar chemicals and being down gradient from the S.E. Rockford plume.

## Area I

1817 Harrison - City water available - Connected to the city municipal water supply on 9-26-90

## Area II

Rock River Ave. - City water not available - will install 1500' of 6" water main and connect the following residences.
